The following resolution was read by the Board Secretary:

R E S O L U T I O N

WHEREAS, In the closing moments of the 198th Legislature, the Senate of the State of New Jersey passed Assembly Bill 688, hereinafter referred to as the Agency Shop Bill; and

WHEREAS, This Agency Shop Bill would require the Bloomfield Board of Education to negotiate with its various employee bargaining units over the issue of whether or not all employees covered by a bargaining unit would be required to pay dues to said bargaining unit and, also, to negotiate as to the amount of dues to be assessed on each person who chooses to not belong to such a bargaining unit; and

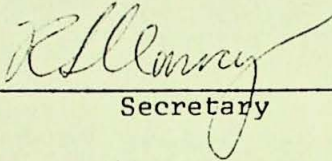

WHEREAS, This Agency Shop Bill serves no public purpose but only increases the public employee union's dues income at the expense of individuals who decide not to belong to such a union; and

WHEREAS, The Agency Shop Bill and its implications of a guaranteed income to the employee unions will make it easier for these unions to perpetuate themselves, whether or not they serve the needs and interests of their members.

NOW THEREFORE BE IT RESOLVED, that the Bloomfield Board of Education strongly urges Governor Brendan Byrne, Governor of the State of New Jersey, to veto Assembly Bill 688, the Agency Shop Bill, as this bill fills no public need or purpose and is an intrusion upon the rights of individual public employees to make their own determination as to whether they should belong to a union; and

BE IT FURTHER RESOLVED, that the Bloomfield Board of Education directs the Secretary to forward this resolution to Governor Byrne.

Recommending the approval of an incentive anti-vandalism program to be operated on a pilot basis starting on Monday, February 25, 1980 and to continue through the close of school in June 1980, at the Senior High School. This program will operate as follows:

For every month that the total cost to repair vandalism in the Senior High School stays below \$750 a check for \$200 will be given to the Student Government Association to be used for the benefit of the student body. The expenditure of these funds by the Student Government Association will be made only for those items which are appropriate to the needs of the High School students and which meet the approval of the High School principal and administration.

A monthly report will be made to the Board of Education outlining the progress of this program and the expenditures of any funds which accrue to the benefit of the Student Government Association.

Resignations, appointments, and a maternity leave of absence.

The Board discussed data provided by the Superintendent of Schools on the fourth grade enrollments at Berkeley School. He recommended dividing this class into a.m. and p.m. sessions and employment of the teacher on a full-day basis beginning March 1, 1980. A straw poll showed unanimous support of this recommendation.

The Board then considered modification of Board Policy #519, High School Graduation Requirements. The Board directed referral of this revision to Strauss Associates, Inc. and a first reading on February 25, 1980.

The Board also approved additions to the substitute teachers and lunchroom aides substitute list.

The Board received a letter from the State of New Jersey Department of Energy dated February 5, 1980 notifying it that no Bloomfield Public School Buildings would be eligible for Cycle I funding by the New Jersey Department of Energy but would automatically be considered for funding in Cycle II effective July 10, 1980.

Superintendent Morris complimented the officers and members of the North Junior High School Home & School Association on their current newsletter.

President Valentovic reviewed the proposed 1980-1981 school budget. He explained that 82% of the budget would be devoted to labor costs, class sizes were very favorable, supplemental programs in reading and math improvement were a high priority, the two mile transportation limit was retained, in spite of a 200,000 gallon per heating season reduction in fuel oil consumption since 1973, \$135,000 additional would be required to heat the schools next year, and that state and local inspections of our school buildings required budgeting of \$135,000 additional for interior painting and other major corrective work.

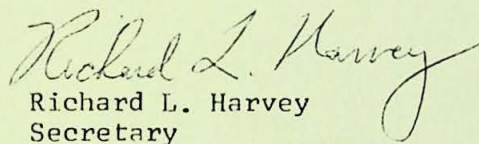

President Valentovic also detailed how there would be two questions on the proposed budget - one for current expense, and one for capital outlay for rehabilitation of the Carteret Multipurpose Room.

Assistant Superintendent Bongiorno briefed the meeting on the Alternative School Program in the junior high schools planned for 1980-1981.

The meeting was opened to questions on both the budget and the alternative school program and then to a general question and answer period.

There being no further business to come before the Board, this meeting was adjourned at 9:50 p.m.

Respectfully submitted,

Richard L. Harvey
Secretary

The Board received a fire drill report for the month of January, 1980.

There followed extensive discussion on the utilization of \$171,032 from the appeal of the 1979-1980 school budget. A straw poll on the question of whether to use part or all of the \$171,032 for items in this year's budget with a subsequent reduction of the 1980-1981 budget by the same amount was not favored by a majority of those present.

Extensive discussion followed based on five pages of detailed worksheets prepared by the Secretary of the Board dealing with adjustments and alternatives for the 1979-1980 budget appeal.

Mrs. Taffet moved the adoption of the following 1979-1980 budget appeal alternative. This motion was seconded by Mr. Kenney.

The Annual Audit for the Child Nutrition Program for the School Year ending June 30, 1979 was received from Touche Ross and Company on February 25, 1980. This Audit covers the financial operations of the school lunch program for the period July 1, 1978 thru June 30, 1979.

This Audit contains no recommendations relative to the financial operations of the lunch program for the period covered by said audit. The auditor finds that the financial operations of the lunch program were carried out "in conformity with generally accepted accounting principles, and in conformity with accounting principles prescribed by the U.S. Department of Agriculture, applied on a basis consistent with that of the preceding year."

Upon motion of Mrs. Taffet, seconded by Mr. Laricha, the Board approved the recommendation accepting this audit as presented by Touche Ross and Company.

(Carried unanimously)

The final audit of the Local Public Works grant #01-51-26620 from the United States Department of Commerce, Economic Development Administration was received on March 5, 1980. This audit covers the renovation of the School Administration Building for the period July 14, 1977 thru December 31, 1979, and is in conformance with the requirements of the United States Department of Commerce. This audit was performed by Touche Ross and Company, Certified Public Accountants, and they found that the financial records of the Board for this grant were maintained "in conformity with generally accepted accounting principles and the Department of Commerce's Audit instructions for Local Public Works Grants under Title I of the Public Works Employment Acts of 1976 and 1977."

The Auditors made one recommendation in the Audit which was that "the Board of Education should make drawdowns against Letters of Credit based upon open purchase orders which are being processed for payment." Accordingly the funds should be received at about the same time as payments are made. This situation came about at the close of the project, as the Board had bills to pay and a drawdown of the remaining balance under the Letter of Credit was made. This was done because the Local Public Works instructions direct that drawdowns made against said Letter of Credit should be at least \$5,000.00. Therefore, in order to meet one requirement, the \$5,000.00 drawdown, another requirement was not followed.

Upon motion of Mr. Kenney, seconded by Mr. Laricha, the Board approved the recommendation accepting this audit as prepared by Touche Ross and Company.

Report to the Board of Education

by the

Special Committee on Utilization of School Facilities

Committee Members

Hilda R. Taffet - Chairperson
Kenneth A. Greene
Leonard F. Laricha

Advisory Staff

Robert E. Morris, Superintendent
Richard L. Harvey, Secretary
George L. Sutton, Director of
Buildings and Grounds

BACKGROUND

The Bloomfield Board of Education received a "Master Plan for Educational Facilities" in the fall of 1978. By action of the Board, an ad hoc Citizens' Advisory Committee was appointed for the purposes of reviewing and making recommendations of the Citizens' Advisory Committee was to close Brookside School during the summer of 1979. The Board of Education, acting on the Committee recommendation, voted to close Brookside School after June 30, 1979.

The Board of Education was precluded from considering any disposition or utilization of Brookside School until November 1979, when pending litigation was resolved in favor of the Board.

CHARGE TO THE COMMITTEE

This special Committee of the Board of Education was formed in December 1979. It was charged with considering recommendations for future actions by the Board concerning the Master Plan and utilization of school space on a long-term basis. The Committee was further charged with making recommendations on the disposition or utilization of the Brookside School property within the context of the "Master Plan for Educational Facilities."

The Committee decided initially to focus its attention on the utilization of Brookside School.

ALTERNATIVES

The following alternatives for the future use of this property were developed:

- a. To continue the building/service for local school district educational purposes.
- b. To return the building to public use.
- c. To retain the building and lease it.
- d. To sell the building outright.

The first action of the Committee was to determine that the Brookside building was no longer needed for educational purposes by the Bloomfield Board of Education.

PRIORITIES

The following priorities were then developed by this Committee for the utilization of the Brookside School building:

FIRST PRIORITY	-Return the building to public use for the benefit of the community.
FALLBACK POSITION	-Retain the building and operate it as a landlord.

The Committee held a series of meetings; real estate consultants were utilized, interested parties were interviewed, the Mayor and Town Council were contacted and consideration was given to the following:

EXISTING CONDITIONS

1. Zoning restrictions
2. Condition of the real estate market, including high interest rates.
3. Need to protect the property from deterioration.
4. Public need.

Therefore, the Committee suggests to the Board that the primary long-term goal for the use of Brookside School should be to return the building to an appropriate public use.

RECOMMENDATION

In consideration of the above conditions, the Committee submits to the Board of Education the following recommendations for immediate action:

1. The Board adopt a resolution declaring that the Brookside School property is no longer needed for school purposes.
2. The Board actively pursue the leasing of the Brookside School property to another educational organization on an interim basis.

A lease of the Brookside School facility to an appropriate educational group would provide the following advantages:

1. A useful need would be served.
2. The building would be occupied and heated.
3. Income would be derived from such a lease.

This action would leave for future consideration, the original priorities set by the Committee to have the Brookside facility used for public purposes.

The Committee will continue to consider the broader aspects of the "Master Plan for Educational Facilities."

Further, the Committee suggests that because the timing of the Board action could be very important to the success of this venture; that the knowledge and input of the public is important and desirable in the contemplation of Board action; a public meeting should be held as soon as possible for the purpose of exchanging information and to clarify issues inherent in this report.

April 7, 1980

President Valentovic expressed his appreciation to Mrs. Taffet, to Mr. Laricha, to Mr. Greene and to staff members who participated in the Brookside School study.

Upon motion of Mr. Kenney, seconded by Mr. Laricha, the Board approved the following resolution:

BE IT HEREBY RESOLVED pursuant to N.J.S. 10:4-13 and 10:4-12 that the Bloomfield Board of Education hold a closed session on Tuesday, April 15, 1980 at the close of the special meeting regarding real estate matters. It is expected that the discussion undertaken in this closed session can be made public at the time official action is taken.

(Carried unanimously)

There being no further business to come before the Board, this special meeting was adjourned at 12:10 a.m.

This elective course would be made available to second semester sophomores and all juniors. An evaluation of the course would be conducted at the end of the 1980-1981 school year.

(Carried unanimously)

Upon motion of Mr. West, seconded by Sister Kenny, the Board approved of three awards to be made to graduating seniors one each in the area of Cooperative Office Education, Cooperative Industrial Education and Distributive Education, effective with the graduating class of 1980. These awards are being established by the high school's Career Education Advisory Board and will be funded by business and industry.

(Carried unanimously)

Upon motion of Mr. Greene, seconded by Mrs. Taffet, the Board approved the following special education placement:

Case #4375 - a multiply handicapped youngster who has been on home instruction pending a residential placement by the Division of Youth and Family Services. (Carried unanimously)

Upon motion of Mr. Holveck, seconded by Mrs. Taffet, the Board approved an increase in mileage reimbursement factor for those employees who must use their automobiles for school business, from 15¢ per mile to 18¢ per mile, effective May 1, 1980.

(Carried unanimously)

Upon motion of Mr. Holveck, seconded by Mr. Laricha, the Board approved the recommendation that personnel for whom we do not have a definite assignment in their area of certification for the school year 1980-1981, as of this date, be advised in writing before April 30, 1980. A listing of the personnel has been submitted to the Board of Education.

It is further recommended that the individual names of each staff member not be included in the public minutes of this meeting and that a listing of the personnel be filed in the Office of the Secretary of the Board of Education, as permitted by N.J. Statutes.

This recommendation is made due to a decline in enrollment, the fact that we have not received official notification of Federal Aid under E.S.E.A. or P.L. 94-142 for next year at this time, and due to the fact that a number of tenured teachers will be returning from leaves of absence.

(Carried unanimously)

Upon motion of Mr. West, seconded by Mrs. Hutchison, the Board approved the following:

Resolved that the Bloomfield Board of Education, as the governing body of the Bloomfield Public School System, authorize the submission of a grant application for \$30,000 in federal funds, under the "Career Education Incentive Act," Public Law 95-207.

The purpose of the proposed project would be to increase secondary school teachers' and students' (grades 9-12) awareness of career education through the infusion of interdepartmental career education activity modules into the existing curriculum. The program would occur during the 1980-1981 school year.

(Carried unanimously)

Upon motion of Sister Kenny, seconded by Mr. Holveck, the Board approved extra compensation for the following staff members for their service in the Elementary School Basketball Program for the school year 1979-1980.

President Valentovic gave an updated report on the status of the Brookside School property which included the following facts:

The Essex County Educational Services Commission has expressed a definite interest in leasing this property. Mr. Valentovic read a portion of the letter expressing this interest. He explained that the Board has studied a negotiated lease and a lease through a sealed bid, and that a majority of the Board favored a negotiated lease.

President Valentovic set Monday, May 5, 1980 as the date for a special meeting to consider action on the utilization of Brookside School. He explained that the Board would consider two actions on this date:

1. To declare that the building is not needed for school purposes.
2. To authorize possible negotiations with the Essex County Educational Services Commission.

Questions from Board members on this subject included voting procedures and the extent of a commitment from the County Commission on which the Board could base its action.

Questions from the public included an appeal of Commissioner Burke's decision to the State Board of Education, the possible use of the Brookside Multipurpose Room by the public, funding of any renovations needed by a tenant, the type of storage needed by the County Commission, the handicapped children in the County Program, other alternative - tenants partial use vs. full use of the building by this tenant, and the age of students who would be enrolled at Brookside School in the County Program.

Fire drill reports were received for March 1980.

Assistant Superintendent of Schools, Joseph Bongiorno introduced a program dealing with Career Education in Bloomfield.

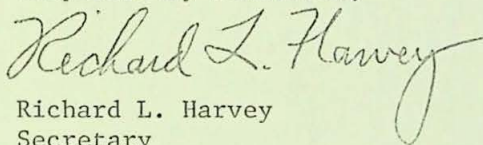

Mr. Charles S. Nankivell, Principal, and Mr. Michael J. Venezia, teacher at South Junior High School, presented a program on their Career Days.

Board members complimented Mr. Venezia and Mr. Nankivell on their presentations.

Vice President Hilda Taffet complimented the public on passage of the 1980-1981 school budget and thanked all those involved on behalf of the Board. She stated that this was a multi-faceted effort by parents, teachers, home and school members, Board members, staff and all others interested in the future of the Bloomfield Schools.

There being no further business to come before the Board, this meeting was adjourned at 10:12 p.m.

Staff members present were: Mr. Robert E. Morris
Mr. Joseph Bongiorno
Mr. Richard L. Harvey
Mr. George L. Sutton
Dr. Nicholas Celso

There were 78 interested citizens in attendance.

Board member Sister Ellen Kenny made a statement based on a ruling by the Board of Education Attorney that she should excuse herself from and not participate in any meeting at which the matter of the leasing of Brookside School to the Essex County Educational Services Commission is considered. Sister Kenny, in addition to being a member of the Board of Education, is a member of the Essex County Educational Services Commission and at the present time is President of this Commission. She excused herself and with the Board President's permission left the meeting at 8:10 p.m.

President Valentovic stated the purpose of the meeting was to consider additional information regarding the disposition of the Brookside School property.

Mr. Valentovic read a letter from the Board of Education to Mayor Kinder dated May 6, 1980 requesting additional information on the position of the Mayor and Town Council in the matter of Brookside School.

President Valentovic also reported receipt of three letters from Mr. Sam Deneka, a resident of 37 Benson Street, dated May 6, May 9, and May 12, stating objections to leasing Brookside School to the Essex County Educational Services Commission.

Mr. Valentovic also reported receipt of a letter from Mrs. Diane Horowitz which stated that the classification of pupils in the program planned by the Essex County Educational Services Commission at Brookside School may not have been perceived accurately by the public.

Superintendent Morris reviewed and commented on Mr. Deneka's letter of May 6, 1980.

Superintendent Morris commented on Mr. Deneka's letter of May 9, 1980 and reviewed each paragraph.

Superintendent Morris reviewed Mr. Deneka's May 12 letter which transmitted to the Board a revised cost analysis for the operation of Brookside School by the Essex County Educational Services Commission. Mr. Morris reported that the State of New Jersey sets a maximum cost per child for special education programs at \$6,400.

Board member Kathleen Hutchison recounted a trip she and Mrs. Taffet took to the Cedar Knolls School in Morris County, operated by the Morris County Educational Services Commission. Mrs. Hutchison explained that several members of the Brookside community had also expressed interest in visiting the school but were not able to make the time available to travel there on May 9, 1980.

Board Vice President Hilda Taffet added to the report by Mrs. Hutchison giving impressions of the Cedar Knolls School operation.

At 9:00 p.m. the subject was opened to Board members for discussion.

At 9:05 p.m. the meeting was opened for public comment and many questions were raised and comments made regarding the future of Brookside School.

A Bloomfield resident who is a teacher at Cedar Knolls School operated by the Morris County Educational Services Commission spoke at length concerning his experiences in this position and answered many questions regarding the behavior of emotionally disturbed pupils.

Bloomfield Mayor John W. Kinder objected to a lease of Brookside School to the Essex County Educational Services Commission claiming it would be a poor financial arrangement. He advised that the Town Council would seek an injunction against such a lease if the Board proceeded with it and asked the Board to defer action at this time.

Further public discussion, question and comment followed.

Councilman Joseph Wojak explained that the governing body's interest in the building in January 1980 was in the all purpose room only and that in his opinion financial constraints, the age of the building, heating problems, energy costs and structural problems made it mandatory to raze the building and create new ratables.

Board member Kenneth Greene responded that only the financial constraints felt by the Governing Body had been communicated to the Board in January.

Councilman Wojak suggested that an understanding that "for future public use" was implicit in the Board's offer to transfer the property to the Town last January.

President Valentovic asked Mr. Wojak if Brookside were leased for one or two years, would the Town be interested in the use of the Multipurpose Room evenings. Mr. Wojak replied that the Council would consider this matter but that no provisions in the 1980 budget had been made for it.

Additional discussion followed between Superintendent Morris and Mr. Sam Deneka of 37 Benson Street regarding Mr. Deneka's cost analysis for the operation of Brookside School by the Essex County Commission.

Mrs. Taffet requested the Board President to poll the Board on the question of whether to end the public comments portion of this special meeting at 11:05 p.m. A majority of the Board present agreed to do so.

A recess was declared at 11:07 p.m.

The meeting was reconvened at 11:30 p.m.

Upon motion of Sister Kenny, seconded by Mr. Laricha, the Board approved the purchase of five (5) instructional calculators from Monroe Calculator Company, Orange, N.J., New Jersey State Contract #A92225 for a total of \$2,316.59. This purchase is part of a continuing program to upgrade the equipment required for Mathematics instruction in the Junior High Schools, and is included in the 1980-81 budget.

(Carried unanimously)

Upon motion of Mr. Holveck, seconded by Mr. Greene, the Board approved the purchase of eleven (11) folding lunchroom tables for Berkeley School and ten (10) for Fairview School from Longo Associates, Inc. of Ramsey, N.J., New Jersey State Contract #A91940 for \$439.00 each. The grand total for both orders is \$9,219.00. The unit cost per table is \$1.00 less than we paid a year ago. These tables will be used in the multipurpose rooms at both schools to improve the lunchroom program. Our experience at Franklin School with the identical model tables this year has been excellent.

(Carried unanimously)

Upon motion of Mr. Holveck, seconded by Mr. Greene, the Board approved the purchase of 106 cartons of vinyl asbestos tile from Hannon Floor Company of Newark, N.J., New Jersey State Contract #A00865 for installation by our mechanics in the North Junior High School cafeteria. The mastic used in the original installation has dried out. Tiles are lifting constantly and repeated repairs have been required for the past four or five years. We are now at the point where the most economical solution is to install a new floor. The total for the tile required plus an improved mastic and accessories is \$3,034.27 subject to the approval of the State Department of Education Facilities Planning Division.

A vote was taken and the result was:

YES	Mrs. Taffet Mrs. Hutchison Mr. Greene Mr. Holveck Mr. Laricha Sister Kenny Mr. Lynch
NO	Mr. Harney
ABSENT	MR. West

(Motion carried)

Upon motion of Mr. Holveck, seconded by Mrs. Hutchison, the Board approved the recommendation that Mr. Spencer L. Tracey be employed to repair textbooks during the summer of 1980 at the rate of \$.58 per book for books needing reinforcement, and \$.65 per book for those books which need a spline replacement. These are the same rates which we paid Mr. Tracey last year for this service, and his service in the repair of textbooks has been most satisfactory.

(Carried unanimously)

Upon motion of Sister Kenny, seconded by Mr. Holveck, the Board approved the appointment of a replacement Maintenance Painter to fill the vacancy created by the retirement of Edward Skorupski. It was approved that Dennis Kelly be appointed as painter in the Maintenance Department for the period July 1, 1980 to June 30, 1981 on the fifth step of the Maintenance Salary Guide in this category.

BE IT HEREBY RESOLVED pursuant to N.J.S. 10:4-13 and 10:4-12 that the Bloomfield Board of Education hold a closed session on June 9, 1980 at 9:00 p.m. regarding real estate and personnel matters and to meet with the Board Attorney. It is expected that the discussion undertaken in this closed session can be made public at the time official action is taken.

Mrs. Taffet reported that she had received a telephone call from Mrs. Jo Cerone, a Franklin School parent, who requested that the Board send a letter to the Town Council supporting her request for additional crossing guards on Broad Street. Mrs. Taffet stated that she had asked Mrs. Cerone to put her request in writing to the Board, including the details of her proposals and studies, etc., so that the Board would have this information available during consideration of her request. Mrs. Taffet told the Board that, as of today, no such request and data had been received from Mrs. Cerone.

Mrs. Taffet asked the Board to consider this request. Extensive discussion followed during which several Board members indicated concerns for the crossing guard situation at Franklin Street and Willard Avenue, the reductions made by the Town in the number of crossing guards during August, 1979 and statistical information previously given to the Board by Mrs. Cerone. Several Board members stated that they would not be willing to consider Mrs. Cerone's appeal to the Town Council until the Board had the opportunity to review the data which she planned to present with her appeal.

Mr. Morris reviewed his letter of February 4, 1980 appealing to the Town Council to restore crossing guard protection at the intersection of Franklin Street and Willard Avenue.

Mrs. Taffet stated that, in light of these discussions, no further action would be taken on this issue because of the lack of specific information from Mrs. Cerone.

The Board considered an agenda prepared by the Superintendent of Schools and took the following action:

Upon motion of Mr. Laricha, seconded by Sister Kenny, the Board approved the following appointments:

- a. Bette Lee Carlson-Chapman, a teacher at South Junior High School on a half-time basis for the school year 1980-1981 and to be compensated at a salary based on the third step of the B.A. level of the Salary Guide for Teachers.
- b. Laurie I. Cook, a teacher at Forest Glen School on a half-time basis for the school year 1980-1981, and to be compensated at a salary based on the first step of the B. A. level of the Salary Guide for Teachers.
- c. Diane D'Angelo, a teacher at South Junior High School for the school year 1980-1981, and to be placed on the second step of the B.A. level of the Salary Guide for Teachers.

(Carried unanimously)

Upon motion of Mr. Holveck, seconded by Mr. Laricha, the Board approved the salaries and the issuance of individual contracts to all employees listed on the Schedule of Individual Contract Salaries for the 1980-1981 School Year.

Dr. Nicholas Celso reviewed for the Board the Evaluation and Classification of Schools and District Analysis of the Minimum Basic Skills Test Data Three Year Review. He explained that the State Department of Education has analyzed the district's Minimum Basic Skills test results for the years 1978, 1979, and 1980. This analysis has been for each individual school in the district as well as for the district as a whole. Based on the results of the analyses the State Department will be classifying each school in the district as either approved with commendation, approved on an interim basis with recommendations, or as approval pending. The criterion used in determining which of the classifications is appropriate regarding basic skills achievement is based upon a nine cell grid which shows whether a school has scored in the high, moderate, or low range and whether such score has declined, remained stable, or improved over the three year period. Dr. Celso indicated that in every instance Bloomfield Schools have scored in either the high and improved, high and stable, or moderate and improving cells and therefore, would likely receive three years approval with commendation. Each Board member received copies of the actual State Department analysis for each school building and copies of said documents were made available for public review and discussion.

Superintendent Morris reported that the Master Plan for Educational Facilities of the Bloomfield Public Schools has been approved by the New Jersey State Bureau of Facility Planning Services for a five year period.

Superintendent Morris reported with regret the death of Rosa Maria Gaeng, a language teacher at Bloomfield Senior High School. The Board agreed to address the question of Mrs. Gaeng's terminal leave at the July 29, 1980 meeting.

Superintendent Morris advised the Board that Mrs. Jo Cerrone had resubmitted a letter of appeal to the State Board of Education on a variety of topics related to the closing of Brookside School.

The Board considered an agenda prepared by the School Business Administrator and Board Secretary and took the following action:

Upon motion of Mr. Holveck, seconded by Mr. Greene, the Board approved the renewal of our contracts with Station Wagon Service of Totowa, N.J. for transportation of Handicapped students on Route #21, #22, #23, #25, #27, #29, #30, #32, #34, #36, and #38 for the school year 1980-1981, for the sum of \$82,359.91. The 1980-1981 contract amount of \$82,359.91 represents the original bid price for the routes listed, plus an increase of 10% for this renewal. This increase is within the 20% allowed on contract renewals.

(Carried unanimously)

Upon motion of Mr. Holveck, seconded by Sister Kenny, the Board approved the renewal of our contract with Coast Cities Varsity Transit, Inc. of Lincoln Park, NJ for Routes 1-A, 2-B, 3-C, 4-D, 6-F, 7-G, 8-H, 9-I and 10-J for transportation of students to the Senior High School for the school year 1980-1981 for the contract sum of \$78,754.60. The 1980-1981 contract amount to \$78,754.60 represents the original bid price for the routes listed, plus an increase of 5%, \$3,424.10, for the 1979-1980 renewal, plus an increase of 10%, \$6,848.24, for the 1980-1981 renewal. This increase is within the 20% allowed on contract renewals.

The Board considered the question of a student accident program for the school year 1980-1981. Upon motion of Mr. Greene, seconded by Mr. Laricha, this subject was removed from the table as ordered at the Board meeting on July 21, 1980.

(Carried unanimously)

Board Secretary Harvey presented a detailed analysis of the Board's liability insurance program as it related to the student insurance program. He explained that while the Board's premium for general liability coverage had been reduced the Board's insurance broker advised that compulsory student accident coverage made people feel better about injuries received on Board property and had a positive effect on what action people would take after such injuries, but no direct casual relationship could be proven.

Discussion followed regarding compulsory student insurance premiums versus the cost of voluntary student coverage. Mr. Harvey stated the average 1979-1980 claim was \$93.00 and that this figure could increase to \$110.00 in 1980-1981.

The Board considered cost estimates of a \$200.00 full excess insurance program for sports activity only. Many questions were raised and answers given.

Mr. Harvey recommended that the Board purchase the Groseclose, Campbell and Hall compulsory program with a full excess over \$200, costing \$16,900 for the school year 1980-1981.

Further discussion followed and the Board members stated positions supporting or opposing compulsory student insurance. Superintendent Morris suggested that the Board continue compulsory student coverage as provided for in the 1980-1981 budget and conduct a parent survey this fall to guide the Board in this area in the 1981-1982 school year.

Upon motion of Sister Kenny, seconded by Mrs. Hutchison, the Board moved to keep the compulsory student insurance premium in the 1980-1981 budget in accordance with the recommendation made by Board Secretary Harvey above, with the excess limit to be determined.

Mr. Holveck suggested the motion be changed to recommending the purchase of compulsory insurance program. Sister Kenny and Mrs. Hutchison accepted this amendment.

President Taffet reviewed the student insurance questions to be addressed by the Board as:

1. Interscholastic sports coverage
2. Voluntary coverage paid by parents

Sister Kenny recommended the Board get Home and School feedback on these questions and table further action until the August meeting. Discussion followed regarding the difficulties of getting broad-based data from parents during the summer months.

Upon motion of Mr. Harney, seconded by Mr. Greene, the Board moved to provide Interscholastic Athletic coverage with a \$200 excess and to ask the same carrier to submit a voluntary student insurance proposal, with the carrier to be selected.

Mr. Laricha proposed an amendment under which the Board would pay only for the Interscholastic sports coverage and would offer no voluntary student insurance plan for 1980-1981. Sister Kenny seconded this amendment.

Further discussion regarding student insurance followed.

Upon motion of Mr. Greene, seconded by Mr. Harney, the Board moved to award a contract for Interscholastic Sports coverage with premiums paid by the Board and for a voluntary student insurance plan paid by parents to Groseclose, Campbell and Hall. Discussion followed. Board Secretary Harvey stated that the voluntary plan offered by the C. W. Bollinger Company would offer parents some additional advantages. Mr. Greene withdrew the motion and Mr. Harney agreed. It was suggested that this question be addressed at a meeting to be held in August.

The Board discussed the possibility of having representatives from C. W. Bollinger and Groseclose, Campbell and Hall attend the next meeting but decided sufficient facts had been presented to make this unnecessary.

Mr. Laricha stated his strong opposition to a voluntary student insurance program.

Bids were received on Tuesday, July 29, 1980 for replacing the lower roof on the Demarest Multipurpose Building. A bid summary follows:

The Board considered a final report to the Board of Education by the Special Committee on Utilization of School Facilities. Extensive discussion took place followed by a question and answer period involving members of the public.

Upon motion of Mr. Lynch, seconded by Sister Kenny, the Board moved to accept this subcommittee report and to act on the six recommendations contained in it. Further discussion followed.

Mr. Harney moved an amendment to this motion to accept the six recommendations as a guide and in principle. Mr. Greene seconded this motion.

The question was called on the amendment and the vote was unanimous.

The vote was held on the amended motion and the result was unanimous.

The report follows in its entirety:

FINAL REPORT TO THE BOARD OF EDUCATION
by the
SPECIAL COMMITTEE ON UTILIZATION OF SCHOOL FACILITIES

CHARGE TO THE COMMITTEE

This Special Committee of the Board of Education was appointed in December, 1979. It was charged with considering recommendations for future actions by the Board concerning the Master Plan and utilization of school space on a long-term basis. The Committee was further charged with making recommendations on the disposition or utilization of the Brookside School property within the context of the Master Plan for Educational Facilities.

Since the Board, upon recommendation of the Citizens Advisory Committee, voted to close Brookside School at the end of the 1978-1979 school year, and since the building has been vacant for one year, the Committee decided initially to focus its attention on the utilization of Brookside School.

On April 7, 1980, the Committee fulfilled that part of its charge dealing with the specific recommendation on the utilization of the Brookside School in its initial report, appended hereto, in the following manner:

"The Sub-Committee for the Bloomfield Board of Education submits to the Board the following recommendations for immediate action.

1. The Board adopt a resolution declaring that the Brookside School property is no longer needed for school purposes.
2. The Board actively pursue the leasing of the Brookside School property to another educational organization on an interim basis."

These recommendations would serve several purposes.

1. The building would be occupied thus reducing deterioration.
2. By leasing the building to an educational organization, the building would still be available to the Bloomfield School District as a school facility should such need arise. If the facility were not used for educational purposes, then under the current state building code for schools, it could not be used as a school facility without major renovation and alteration since it would not meet the current state code for new school facilities.

3. Since the Committee's first priority was to recommend that the town utilize the building for public use for the benefit of the community, and since the municipality was financially unable to do so at this time, additional time would be provided for the Board to consider final disposition of the facility. The Committee decided that any final disposition should involve input from the Community.

The recommendations in the initial report were decided upon as an interim solution to an immediate problem; namely, the vacancy of the facility and the fact that time was of the essence if the facility was to be occupied for the 1980-1981 school year.

The Board, acting on the Committee's recommendation, negotiated a lease with the Essex County Educational Services Commission for a period of up to two years.

Regarding the initial charge to consider recommendations for future actions by the Board concerning the Master Plan and utilization of school space on a long-term basis:

The Committee does not foresee at this time a need for a change in the organization of the school system or the utilization of school space prior to the 1982-1983 school year.

The Committee recognizes however, that if the Master Plan for Educational Facilities projected statistics for declining enrollment continues to be valid, a further reorganization of the school system needs to be considered.

The Committee also recognizes that community input is both desirable and helpful to the Board of Education in its deliberations. Further, the Committee feels that advance planning over a two year timetable, allowing time for a year of investigation and discussion and a year of preparation, is the key to smooth transition.

In its initial report, the Special Committee stated that the recommendation to lease the Brookside School facility to an appropriate educational group would leave for future consideration, the original priorities set by the Committee to have the Brookside facility used for public purposes. This is still the Committee's first priority and underscores the recommendations to the Board in this final report.

The Special Committee on Utilization of School Facilities therefore makes the following recommendations to the Bloomfield Board of Education:

1. That the Board of Education involve an advisory group to further review the Master Plan of Educational Facilities prepared by the educational consulting firm of Engelhardt and Engelhardt, Inc.
2. That by mid-November, 1980, the Board of Education charge this advisory group with the responsibility of proposing recommendations for future actions by the Board of Education concerning the Master Plan as it relates to school facilities on a long-term basis.

3. That this advisory group be composed of Bloomfield citizens representing a broad spectrum of the public with an interest in the Bloomfield Schools.
4. That no member of the Board of Education serve as a member of such advisory group.
5. That a member of the public be appointed by the President of the Board of Education to serve as chairperson of the advisory group.
6. That this advisory group report their recommendations to the Board of Education by October 1, 1981.

The superintendent reported receipt of a preliminary letter indicating approval of the funding for our Career Education Infusion Program which was submitted last spring and that the potential grant money would be up to \$30,000.

Superintendent Morris reviewed a report on RACIAL ETHNIC STUDENT ENROLLMENT BY SCHOOLS, September 1977-September 1978 and September 1979 with the Board and with the public present. The Superintendent explained that a letter had been received from the State Department of Education asking the Board to review minority imbalance at two schools; namely, Forest Glen and Demarest, to see what could be done to reduce this imbalance. The State has requested that a procedure be developed by December 31, 1980 to reduce the minority imbalance for the school year 1981-1982. Mr. Morris stated that implications for participation through a citizens advisory committee or similar lay group are apparent.

Extensive discussion by the Board followed. Board members agreed that this kind of program represents a sensitive issue in school districts and that a careful review of the total program with all concerned would be required. Mr. Morris stated that he would get additional detailed information on the State's request and that technical assistance from the State Department of Education was available if needed.

The Board considered an advisory group to further review the Master Plan for Educational Facilities.

Superintendent Morris presented and reviewed an outline entitled EDUCATIONAL FACILITIES MASTER PLAN OUTLINE. This had been distributed to the Board prior to the conference.

A second outline entitled NEED FOR A SECOND CITIZENS ADVISORY COMMITTEE was studied by the Board and reviewed by the Superintendent. It contained background information, twelve (12) recommendations of the original citizens advisory committee and the names and organizations represented by the members of the original citizens advisory committee. It also contained a section entitled COMPOSITION OF THE RECOMMENDED CITIZENS ADVISORY COMMITTEE and a suggested charge to the committee.

Extensive discussion followed. After the Superintendent's review of the outline proposal, the following decisions were reached:

1. The new committee would be called CITIZENS ADVISORY COMMITTEE PHASE II.
2. The composition of the new committee was agreed upon, and will contain 32 members.
3. The Board will not have to discharge the "old" committee.
4. Board members will provide the Board President a list of names on September 17, 1980 for possible consideration for nomination as the Citizens Advisory Committee Phase II chairperson.
5. Board Policy 904 will require revision and will be given first reading on September 17, 1980.
6. A charge to the Citizens Advisory Committee Phase II will follow the Superintendent's outline as detailed on Page 7 of the draft proposal.

President Taffet asked Board members to indicate their interest in the near future on negotiating committee assignments with the various employee units.

There being no further business to come before the Board, this conference was adjourned at 12:45 a.m.

CITIZENS ADVISORY COMMITTEE

The success of the school system depends to a large extent, on open channels of communication between the school community and the community at large. Citizens' advisory committees are particularly useful in this respect, both in keeping the Board and administration informed with regard to community opinion and in representing the community in the study of specific school problems.

The Board authorizes that citizen advisory committees be used for funded programs as the law requires and for other purposes when deemed necessary to the Board. As the need arises, the Board shall form and support advisory committees on an ad hoc basis.

In establishing an advisory committee, the Board shall:

- a. appoint citizen members who are able and interested in the subject and concerned about the schools.
- b. approve appointments by the Superintendent of staff members and/or students, if appropriate.
- c. appoint a chairperson.

In charging the advisory committee, the Board shall define the committee assignment, and set a date (s) for the submission of periodic reports.

Recommendations of all advisory committees shall not reduce the responsibility of the Board, which shall be free to accept or reject the recommendations as it sees fit. Meetings of an advisory committee shall not be open to the public.

Upon motion of Mr. Harney, seconded by Mr. Holveck, the Board approved a second reading of an amendment to Board Policy #904 as follows:

CITIZENS ADVISORY COMMITTEE

The success of the school system depends to a large extent, on open channels of communication between the school community and the community at large. Citizens' advisory committees are particularly useful in this respect, both in keeping the Board and administration informed with regard to community opinion and in representing the community in the study of specific school problems.

The Board authorizes that citizen advisory committees be used for funded programs as the law requires and for other purposes when deemed necessary to the Board. As the need arises, the Board shall form and support advisory committees on an ad hoc basis.

In establishing an advisory committee, the Board shall:

- a. appoint citizen members who are able and interested in the subject and concerned about the schools.
- b. approve appointments by the Superintendent of staff members and/or students, if appropriate.
- c. The chairperson of such advisory committee shall be appointed by the Board President.

In charging the advisory committee, the Board shall define the committee assignment, and set a date (s) for the submission of periodic reports.

Recommendations of all advisory committees shall not reduce the responsibility of the Board, which shall be free to accept or reject the recommendations as it sees fit. Meetings of an advisory committee shall not be open to the public.

(Carried unanimously)

Upon motion of Mr. Laricha, seconded by Mr. Lynch, the following charge to the Citizens Advisory Committee Phase II was introduced for approval. Extensive discussion followed.

CITIZENS' ADVISORY COMMITTEE/PHASE TWO

In support of its fundamental interest for the continued excellence of our school system, its concern to consider the needs and desires of the citizens of Bloomfield, and the requirement to progress in the solution of problems related to the future organization of our school district, and the utilization of our school facilities, the Board of Education hereby re-activates the Citizens' Advisory Committee and requests it to enter into Phase II of its deliberations with the following charge:

Charge To The Citizens' Advisory Committee/Phase Two

Based upon a review and analysis of the Master Plan for Educational Facilities (and all addenda thereto), the Preliminary Report compiled by the original Citizens' Advisory Committee on the Master Plan for Educational Facilities, and all additional pertinent data which may from time to time be presented to the Committee:

- I. Submit a report by October 15, 1981 with recommendations as to what further actions the Board should take with regard to the future organization of the school district and the utilization of existing school facilities during the next five years;
- II. Submit a report by December 8, 1980 with recommendations as to what action the Board should take to comply with the request from the State Department of Education to relieve the apparent racial imbalance in five of the elementary schools;

III. Submit a report by February 1, 1982 with recommendations as to what action the Board should take with regard to the utilization or disposition of the Brookside School facility at the termination of the lease with the Essex County Educational Services Commission, and the utilization or disposition of other school facilities which may not be needed as a result of the proposed future organization of the school district;

IV. Submit progress reports to the Board of Education on a bimonthly basis.

It is understood by the Board that all of the above charges may be inter-related; however, by separating the problems into specific charges, the Board feels that the Citizens' Advisory Committee will be better able to focus its attention and provide well reasoned and workable recommendations, as well as alternatives where considered appropriate, to assist the Board in its decision making process.

(Carried unanimously)

President Taffet announced that the chairperson designated for the Citizens Advisory Committee Phase II will be Mr. Harland M. Zeve and that the date for an orientation for this committee would be set by the middle of October.

The Board considered a special meeting agenda prepared by the School Business Administrator and Secretary to the Board and took the following action:

Upon motion of Mr. Laricha, seconded by Mr. Lynch, the Board approved of an agreement with the Essex County Educational Services Commission under which the Board of Education will supply a Type A lunch to students at the Essex Academy as a school within the school district of Bloomfield under our agreement with the Bureau of Child Nutrition of the State of New Jersey. This agreement will become an addendum to our agreement with the Bureau of Child Nutrition and will contain the following provisions:

- a. Bloomfield will supply the meals and claim for reimbursement from the State.
- b. Essex Academy (ECESC) will collect any monies due from the students at Essex Academy and forward the same to the Senior High School cafeteria to be included in the reporting from the Bloomfield Board of Education.
- c. ECESC will assume responsibility for any audit exceptions concerning the count of meals served and for the approval of applications for free and reduced price meals.
- d. Bloomfield will provide in bulk the necessary number of meals as requested by the Commission. Such meals will meet the requirements of the School Lunch Program. Since these meals will have to be served from the bulk carrier, the Commission will assume the responsibility for meeting the Type A requirements when they serve the meals.

- e. The ECESC will reimburse the Board at the close of the school year for its proportionate share of the subsidy which the Board of Education pays over to operate the School Lunch Program. This share will be established by dividing the subsidy which the Board pays to the School Lunch Program by the number of Type A meals served in our total program to arrive at a per meal cost of this subsidy. This per meal cost will then be multiplied by the number of meals provided to ECESC to arrive at a dollar amount share which they will have to reimburse to the Board.
- f. ECESC will pay to the Board at the end of the year, its pro rata share of the cost of the delivery of these lunches. This cost will be established based upon the actual time which is devoted to delivery of the food to Essex Academy and then picking up the container after lunch. Mr. Sutton has estimated that the time required for this daily delivery will not exceed one man hour.
- g. ECESC will provide the necessary container for the transportation and storage of this Type A lunch to Essex Academy. Based upon information which I received today, it appears that the Child Nutrition Program of the State of New Jersey will provide one Volrath Container to the Commission at no cost to start this program.

President Taffet stressed that the Board will be reimbursed all costs in connection with this agreement.

Mr. Harney moved an amendment to limit the number of lunches to be provided at the maximum one (1) Volrath container could hold. There was no second to this amendment.

Superintendent Morris reported receipt of the "Emergency Committee Report" prepared by Michael J. Stellato, Chairman of the Brookdale Home and School Association. This report was discussed by the Board.

BLOOMFIELD HOME & SCHOOL COUNCIL
Bloomfield, New Jersey

EMERGENCY COMMITTEE REPORT

The sole purpose of the Emergency Committee Report is to establish a procedure which, in the event an emergency situation of any kind should again arise, the Home and School Council would be prepared to take immediate, specific and effective measures to assure the safety, well being and best interest of our children are being served.

The Emergency Committee urges the immediate ratification and adoption of these two resolutions in their entirety as part of the Home and School Council Constitution:

1. In the event any unannounced activity would leave the schools with inadequate adult supervision, the Home and School Council, when asked by the Superintendent of Schools, will urge parents to enter schools and assist in any non-teaching function which would assure that the safety, well being and best interest of the children are being served as well as can be expected.
2. To authorize the President of the Home and School Council to commission an Emergency Committee within the following framework:
 - a. The Emergency Committee would be commissioned on an annual basis by the President of the Home and School Council. He would serve as Chairman of the Committee until such time as it is convened. Committee members will select a Chairman at an organizational meeting to be held no later than 30 days after the opening of school.

- b. The Emergency Committee will consist of two members from each school, one of whom will be the local school President, the President of the Home and School Council, Two members of the Bloomfield Education Association, a member of the Bloomfield Board of Education, the Superintendent of Schools or his Designee.
- c. The role of the Emergency Committee will be that of the inquisitor and disseminator. It will endeavor to factualize, substantiate and/or disprove any rumor, allegation or activity which may be creating unnecessary alarm or fear in the community.
- d. The Emergency Committee will utilize whatever reasonable means are necessary to accomplish this goal. The collected information will then be made available to all requesting it.
- e. The dissemination of information will take place at the local school level. A phone squad consisting of the two Emergency Committee members and the local Home and School officers will be established. The two Emergency Committee members will inform the local Home and School officers and the local teacher representative of any findings the Committee has made. Classroom mothers would make available to all parents, the names and phone numbers of the proper individuals to call to get factual information. Teachers, at individual schools, would also be able to discuss any information with their local Home and School teacher representative and their representative at the Emergency Committee.

Respectfully submitted,

Michael J. Stellato, Chairman
Emergency Committee

Superintendent Morris reported receipt of an official communication from Mayor Kinder that school crossing guards will be assigned at the intersections of Willard Avenue and Franklin Street, and at Prospect and Myrtle Streets, for a 90 day trial period.

Director of Buildings and Grounds Sutton reviewed a property survey with the Board.

The meeting was opened to public questions at 9:30 p.m. Questions were asked regarding the geographic selection of members for the Citizens Advisory Committee Phase II and about the qualifications of the committee chairperson.

There being no further business to come before the Board, this special meeting was adjourned at 9:40 p.m.

President Taffet announced that a conference would follow.

This conference began at 9:55 p.m.

Board members present were: Mrs. Hilda R. Taffet
Mrs. Kathleen Hutchison
Mr. Paul J. Holveck
Mr. Leonard Laricha
Mr. Richard West
Mr. Robert Harney
Mr. Jack Lynch

Absent: Mr. Kenneth Greene

Staff members present were: Mr. Robert E. Morris
Mr. Joseph Bongiorno
Mr. Richard L. Harvey
Mr. George L. Sutton

Board Secretary Harvey reported receipt of a letter from a North Junior High School parent residing on Summit Avenue requesting bus reimbursement for her child. The question had been referred to the transportation committee for review. Mr. Harvey reported that a prior year's mileage check done with an automobile speedometer was incorrect and that the distance from the home on Summit Avenue to the North Junior High School, recently verified with a walking odometer, proved to be less than 2 miles. The transportation committee recommended that the parent request be denied since the verified distance is in fact less than 2 miles. This decision is in accordance with Board Policy. The Secretary was directed to advise the parent.

Superintendent Morris reviewed a worksheet entitled: "Profile of Sixth Grade Classes (28 or more pupils)." He reported extensive review of this matter with the principals at both Brookdale and Demarest Schools. Superintendent Morris recommended no change in the staffing pattern at Brookdale School, but urged the addition of a sixth grade teacher at Demarest School, and a splitting of the two sixth grade sections in grade three there. The Board approved these recommendations.

Superintendent Morris recommended adding two additional half teacher days of instrumental music instruction at Berkeley, Carteret and Watsessing Schools because of the increased demand for this subject at these locations. The Board concurred.

There being no further business to come before the Board, this conference was adjourned at 10:30 p.m.

Respectfully submitted,

Richard L. Harvey

Bids were received on Thursday, October 9, 1980 for fuel oil tank piping work and manhole replacement work on the fuel tank at South Junior High School. Two bids were received for this work. One bid made by E. A. DeSantis of West Orange in the amount of \$6,200 is for the manhole construction. The other bid, that of Hil-Ken Heating Company of Bloomfield, was for both the fuel oil tank piping work and the manhole reconstruction in the amount of \$11,500.
